

# DoMEStic

*Traditional Knowledge to Innovation*

DoMEStic is an ARIMNet project focusing on the sheep and goats production systems in the Mediterranean region.

DoMEStic aims to assess the sustainability of the small ruminant sector by analysing: 1) The components of the production systems, 2) the interactions between breed management and strategies for valorisation of the products and the organisation at territorial level, and 3) the supply chain and the role of the different stakeholders.

## DoMEStic Partners:

- Hellenic Agricultural Organisation –DEMETER, VRI, Thessaloniki, Greece
- Institut National de la Recherche Agronomique, SAD-LRDE, Corte, France
- Agricultural Research Institute, Lefkosia, Cyprus
- Institut Agronomique et Vétérinaire Hassan II, Rabat, Morocco
